

Chapman University is excited to announce a \$3 million gift establishing the Thompson Policy Institute on Disability and Autism

The \$3 million gift, given by the William S. and Nancy E. Thompson Foundation, establishes the Thompson Policy Institute (TPI) on Disability and Autism, a new think tank that will gather data and develop its own independent research to study and, when appropriate, advocate on topics surrounding the issues of disability and autism. The institute's aim will be to educate policymakers and decision-makers on these topics toward improving the quality of lives of children and adults with autism and their families.
